Help

+ Select as many years or states as you want then press go. You will be directed to a page with a pie chart for each of those states and each year specified. If you select a year and no states you will see all states in that year. As well as if you select a state with no year it will show data for that state in each year. In addition to the pie chart and vote totals, we will have our production box for that election given certain voting methods.
